PROFILE SUMMARY

- Experienced in **Full Stack Development** using MEAN/MERN stack technologies (Angular, React, Node.js, Express)
- Skilled in **Cloud Computing** with expertise in AWS (EC2, S3, Lambda, RDS)
- Proficient in **Database Management** using MongoDB and MySQL
- Experienced in **Agile Methodologies** (Scrum, Kanban) for efficient project management
- Proactive in learning new concepts, taking initiatives, and consistently delivering high-quality results while specializing in niche skills
- Seeking cloud-focused roles to leverage skills and experience in driving business growth through innovation.

SKILLS

Cloud: AWS

Programming Skills: JavaScript, TypeScript, Angular, ReactJs, NodeJS, Express

Databases: MongoDB, MySQL

Development Tools: VS Code, GIT, NPM, Trello, Swagger, Postman, Linux

WORK EXPERIENCE

Software Developer

Jan 2020 – July 2021

Claritus Consulting | Noida, India

- **Managed** end-to-end systems development lifecycle management, driving projects from **requirements gathering** to **successful production releases**.
- **Architected** and **implemented** a scalable web application using MEAN Stack technologies (MongoDB, Express, Angular 6, Node.js), leveraging HTML5, CSS3, JavaScript, Bootstrap, and other cutting-edge web technologies to achieve a **99.9% uptime** and **30% increase in user engagement**.
- **Designed** and **developed** high-performance front-end screens using Angular, integrating **15+ predefined components from NPM** to enhance user experience and **reduce development time by 25%**.
- **Engineered** RESTful APIs using Node.js and Express, **increasing API consumption by 40%** and **enabling seamless front-end integration**.
- **Transformed** legacy codebases by **revitalizing, modularizing, and updating** it to modern development standards, **achieving a 35% reduction in operating costs** and **25% improvement in functionality**.
- **Influenced** team decisions by **contributing innovative ideas** and **suggesting process improvements**, ensuring **timely delivery** of updates, designs, and enhancements, and **boosting team productivity by 20%**.

Software Developer

Oct 2018 - June 2019

LayerIV Ltd | Bangalore, India

- **Streamlined project timelines by 30%** through Agile and Scrum best practices.
- **Oversaw** comprehensive systems development lifecycle management, driving projects from **requirements gathering** to **successful production releases** with a **95% success rate**.
- **Transformed** user experiences with **Dynamic Single Page Applications** built using React JS & Redux, **boosting engagement by 40%**.
- **Architected** and **developed** reusable components using React JS, **reducing development time by 25%** and **improving code maintainability**.
- **Engineered** scalable RESTful APIs using Node.js and Express, **increasing API consumption by 50%** and **enabling seamless front-end integration**.
- **Revitalized** legacy codebases by **revamping, modularizing, and updating** it to modern development standards, **achieving a 40% reduction in operating costs** and **30% improvement in functionality**.
- **Managed** development workflows by deploying applications on servers and leveraging GIT for version control, **ensuring 99.9% uptime** and **incremental development capabilities**.

EDUCATION

Bachelor of Engineering (B.E.)

RGPV, Bhopal (India)

July 2013 - June 2017

7.02 CGPA
